

St. John's Catholic School
1st February 2021

Dear Parents/Carers,

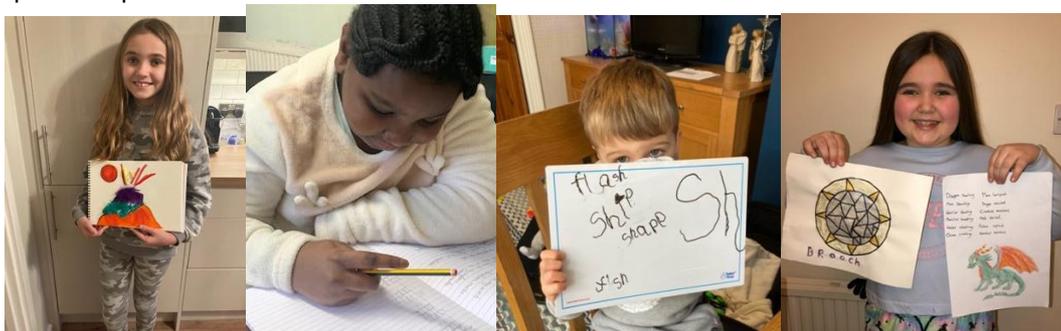

Thank you for emails which are being sent to the class email addresses, sharing your child's work. If you have not yet emailed please start to do that this week as this helps the staff to keep in touch and allows them to congratulate your child on their efforts. You do not have to email in every piece of work – but please do ask your child to choose some work which you can scan or photograph and email in regularly.

At the moment we have displays in the corridor which are celebrating home learning and we would love to have a photo of all the children at home. We appreciate the challenges of the situation and congratulate you on what you have achieved so far with your children.

This week parents in KS1 and 2 will see a link on the Learning Grid to a self-assessment activity on Friday. Please look at this with your child. If your child is older it would be great if they could send the email themselves at the end of the week to their teacher with their self-assessment.

Also, this week each class has written a letter to the children at home. For the younger children these will be printed and included in the packs or posted. For the older children these will be on the website – so do look out for them!

We continue to add photographs of children enjoying their home learning to the school website – so do have a look! Why not email a photo next week? Children enjoy looking at these so do share them!

Finally, Ms. Phipps has put together a Parent Guide to the new on-line learning linked to Collins e-reader website; this allows your children to access books on-line. This is available on the website. Please check the learning grids for details of this and how to get your child's user name and password.

Yours faithfully,

Ms J Babb (Executive Head)

Ms V Jajechnyk (Head of School)
