

To all of our Year 5 friends at home,

Before we begin, we would like to tell you all that we are missing you so much. Year 5 is just not the same without you. How are you? We hope that you and your family are safe and well.

We know it has only been a few weeks, but we have so much to tell you! This week, we got a new whiteboard, which is huge and very modern, installed in our classroom. It is amazing! We can't wait for you to see it. Did we mention... It is MASSIVE!

How are you finding the home learning? Do you find it easier at home? When we were at home, we found it quite hard to finish our work. However, we loved home learning and we hope you do too.

In class, we have been doing a lot of Mathematics. Have you enjoyed doing Mathematics at home? I know that when we were at home during the first lockdown, we didn't have it. Now we have it, it makes maths a lot easier. Also, are you enjoying our book 'The Lost Happy Endings'? We have really loved listening to the story but we all agree that Jub didn't deserve the way she was treated from that old, wicked witch. Extreme Earth has been our favourite topic yet. We have loved creating pieces of art work linked to the modern artists. We used chalk pastels to create a volcanic landscape in the style of Hokusai and paint to create some art inspired by Ashevak. Which artist is your favourite?

Miss O'Reilly has told us that she has really enjoyed looking at the work you have been sending to the class email. She told us that she has been calling you each week to let you know that we are all missing you so much.

We hope you reply soon. Take care and stay safe.

Lots of love,

From your friends in Year 5.
