

To our Year 6 friends at home.,

We hope you had a great Christmas. We all miss you. It has been very lonely without you. We have been working really hard and because you've not been in, we want you all to know what we've been learning about.

Did you know that we have finished learning about the Mayflower and are now learning about climate change? We had a geography lesson where we learnt about different countries and the effect climate change could have on them in the future. We also got to do a fun activity where we compared an atlas, a Peters-Projection map, a globe and Google Earth and we found out that some countries and continents are a lot smaller than you think!

In RE, we learnt about the most important people in the Bible from the Old and New Testament. It was interesting to know that so many people were obedient to God. We have been doing exciting activities like Press Play and using the iPads. Don't forget you can do Press Play at home – the link is on the school website.

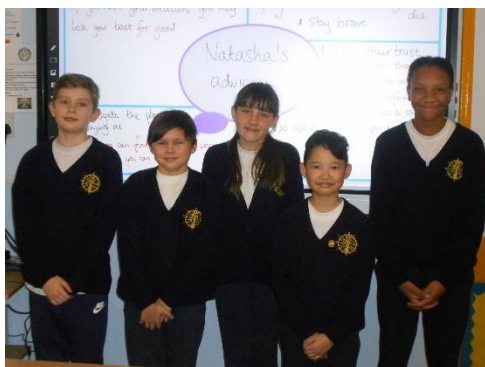

Other news - Miss Tamuyeye has finally got a new whiteboard, but it took her a long time to turn it on. It was hilarious! We also have the cage to ourselves at playtime and lunchtime and we can't wait until everyone is back to have full football matches again.

Also, can we all pray for Miss Sonia? She hasn't been feeling very well so let's pray she gets better soon.

We really are missing you and we hope we get to see you all soon.

Lots of love

Year 6

Here's a picture of some of us in front of the new whiteboard & enjoying Press Play!
